

**Insecticide designed to control most sucking insects.
For use on all crops.**

Agro Pest™ is a contact insecticide made from natural ingredients, including thyme oil and rosemary oil. Designed for use across all crops, it effectively controls most sucking insects, such as aphids, mites, whiteflies, thrips, psyllids, and *Drosophila suzukii*. This natural formulation offers a sustainable solution for pest management, aligning with integrated pest management (IPM) strategies to reduce reliance on synthetic chemicals. **OMRI listed.**

Agro Pest™ Benefits:

- ✓ **Insecticide:** Controls a wide range of insects, especially those that feed by sucking.
- ✓ **Psyllid Treatment:** Effective in managing Psyllids that can damage crops.
- ✓ **Soil Larvae Treatment:** Targets soil dwelling larvae, reducing populations at the root level.
