

AMIN 24

Liquid Fertilizer 8-0-0

Amin 24 is a unique organic blend of 24 supra molecular amino acids and 8% nitrogen, specifically formulated with supramolecular technology to support root system development and enhance plant resilience. This 100% bio assimilable solution improves nutrient and water uptake from the soil and increases stress tolerance.

Amin 24 optimizes plant growth and productivity while supporting sustainable agricultural practices with the enrichment of organic matter, cytokinins, and betaines.

Amin 24 Benefits:

- ✓ Enhances root development
- ✓ Improves stress tolerance
- ✓ Supports plant health and productivity
- ✓ Quick penetration supports zero residue
- ✓ Quick penetration reduces carbon footprint
