

NITROGEN 24

Liquid Nitrogen Fertilizer 24-0-0

Nitrogen 24 is an advanced nitrogen solution leveraging supramolecular technology for efficient nitrogen assimilation. Its 24-0-0 NPK formulation is ideal for promoting tissue formation and vegetative growth. Stabilized as non-nitrifiable ammonium nitrogen (NH_4^+), it helps reduce the release of harmful Nitrites. Eco-friendly and low residue, it ensures sustainable and efficient nitrogen use in agriculture while delivering observable vegetative growth within 72 hours.

Nitrogen 24 Benefits:

- ✓ High performance nitrogen assimilation
- ✓ Supports tissue and vegetative growth
- ✓ Zero residue
- ✓ Optimized nutrient efficiency
- ✓ Reduces carbon footprint

General Recommendation:

	Fertigation*	Foliar Application *
Stone and fruit trees, vegetables, and row crops	14 to 55 us fl oz per acre per application	7 to 41 us fl oz per acre per application

* Do not exceed 1.3 quarts per acre in foliar

* Do not exceed 1.75 quarts per acre in fertigation
