

SEVERIX™

Systemic, Non-Selective, Broad-Spectrum Herbicide

Severix™ is a powerful, systemic herbicide formulated with essential oils delivered through a proprietary blend of high-performance surfactants. Designed as a broad-spectrum, non-selective weed control solution, **Severix** targets even the most stubborn grasses and broadleaf weeds. Suitable for a wide range of agricultural and landscape applications, it can be used along fence lines, around trees and shrubs, or as a targeted crop

Severix™ Benefits:

- ✓ Systemic, broad-spectrum herbicide
- ✓ Fast action solution
- ✓ Plant based
- ✓ Cleaner alternative to conventional chemical herbicides

General Recommendation:

Apply 5% to 15% in 8 to 25 Gal of water (approximately 6 to 20 oz per gallon)
