

# 10-5-10 + MICROS

## Fertilizer 10-5-10 with Micronutrients

**Terrafluid 10-5-10+Micros** is an advanced 10-5-10 NPK solution composed of supramolecular technology that provides efficient assimilation of nitrogen, phosphorus, and potassium with the addition of micronutrients Boron and Manganese.

**Terrafluid 10-5-10+Micros** is ideal for supporting tissue formation and vegetative growth. Its nitrogen content is non-nitrified. It can be used in continuous fertigation and foliar irrigation plans throughout the life of the crop.

### 10-5-10+Micros Benefits:

- ✓ Boosts root hair formation and root strength
- ✓ Enhances early growth and uniform establishment
- ✓ Speeds recovery from transplant stress
- ✓ 100% bio-assimilable
- ✓ Zero residue

### General Recommendation:

|                                                   | FERTIGATION                                | FOLIAR APPLICATION                         |
|---------------------------------------------------|--------------------------------------------|--------------------------------------------|
| Stone and fruits trees, vegetables, and row crops | 13 to 64 us fl oz per acre per application | 13 to 64 us fl oz per acre per application |

*Do not exceed 0.5 gallons per acre in foliar  
Do not exceed 0.5 gallons per acre in fertigation*
